Johnstown, PA 15904

RE: Somerset County, Conemaugh and Paint Townships
Route 4022 (Carpenters Park Road/Cottage Lane)
Stonycreek River Bridge Replacement

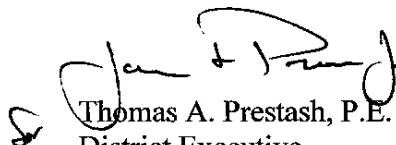

Dear Mr. Podratsky:

The Pennsylvania Department of Transportation (PennDOT) is developing plans for the Route 4022 Bridge Replacement Project. The project, carrying Route 4022 (Carpenters Park Road/Cottage Lane) over the Stonycreek River, is located in Conemaugh and Paint Townships, Somerset County and will involve replacement of the bridge with minimal approach roadway work. During construction, current plans are for traffic to use a detour to allow the contractor full access to the bridge.

You and other members of your family, group, or organization, are invited to attend the Public Plans Display regarding the referenced project on Monday, April 16, 2012 from 6:00 p.m. to 7:30 p.m. at the Conemaugh Township Building located at 1120 Tire Hill Road, Johnstown, PA 15905. The plans display will be conducted in an open house format. You are welcome to attend anytime during the meeting hours. The comments of all individuals, groups, or organizations are welcome.

The meeting location is accessible to persons with disabilities. Anyone having special needs or requiring special aid is asked to contact the Pennsylvania Department of Transportation prior to the meeting. If you require additional information concerning the meeting, please contact Nicki Donahoe PennDOT Project Manager, at (814) 317-1650.

Sincerely,

Thomas A. Prestash, P.E.
District Executive
Engineering District 9-0
